Pokemon Fire Red/Leaf Green: Gift Reset

Soft reset gift Pokemon until a shiny is found, this includes Magikarp, Eevee, Larpas and fossil Pokemon etc.

Requirements

- **Serial Port:** Yes
- **Camera Device:** Yes
- **Audio Input:** No

Program Settings

- **Accept Gift:**
Check this if gift Pokemon requires you to press Yes, Eevee or fossil does not need this.
- **Seed Frame:**
Wait this many frames (not accurate) before pressing A at the title screen. This setting is changed by the program while running
- **Advance Frame:**
Wait this many frames (not accurate) before finishing dialogue after picking starter. This setting is changed by the program while running

Setup Instructions

1. Switch 2 user must disable all HDR settings, **Console Screen's HDR Output** and **HDR Output** below
2. Set Text Speed to Fast
3. Save in front of gift NPC or Pokeball

Expected Results

The programs starts by soft resetting with ABXY, delay by Seed Frame at title screen, delay by Advance Frame and accepts the gift. Then it checks last Pokemon's summary for the yellow shiny star, if not shiny the program increments Seed Frame or Advance Frame to check a different RNG permutation.
