

Auto Controller 2 Manual by brianuuuSonic

Pokemon Fire Red/Leaf Green: Overworld Shiny

Run back and forth for random encounters until a shiny is found

Requirements

- Serial Port: Yes
- Camera Device: Yes
- Audio Input: Yes

Program Settings

- Type:
More Up and Down or Left and Right
- Move Time:
Move for this many milliseconds before turning around

Setup Instructions

1. Switch 2 user must disable all HDR settings
2. Found a place where there are walls on both sides, the closer the walls the better as you will spend less time getting stuck on one side if encounter has happened
3. **Sound MUST be set to Mono in in-game options**
4. Your first Pokemon must be fast enough to run away any encounters, and **MUST NOT** be shiny, but you can use this to test if shiny sound detection is working

Expected Results

The program simply runs back and forth, listen if there's a shiny sound during the random encounter, if not runs and repeats.
